Alcohol: 12% by vol.  
Quality designation: *D.O.C - C.M.D.*  
Total acidity: 7,42 g/l

## Vinification details

We grow authentic *Busuioaca de Bohotin* grapes on 6 hectares of vines right here in *Budureasca* vineyards from *Dealu Mare*. Using these manually selected grapes we obtain this elegant and well-structured wine. After the pressing of the grapes was completed, we fermented the grapes at low temperatures for 3-4 weeks, to keep the natural sugars, offering a great balance between the varietal aromas and the sweetness of the wine.

## Tasting notes

Pale pink color, with raspberries and wild cherries aromas on the nose, joined by fine notes of roses. The taste of ripe summer fruits is pleasant and well-balanced, with fresh acidity and a long, clean finish. It is an elegant and easy to drink wine at the same time.

## Food pairing suggestions

This wine is best served as it is, or together with slightly salty or spicy dishes.

## Serving temperature

This wine is best served at a temperature of 10-12°C.
