Alcohol: *13% by vol.*

Quality designation: *D.O.C - C.M.D.*

Total acidity: *4,86 g/l*

Vinification details

This wine was made of black grapes of Cabernet Sauvignon and Merlot grown right here in our vineyards from Dealu Mare, where these grapes had the perfect conditions to reach their maturity. We fermented the grapes on the skins for about 15 days, after which we pressed the grapes to obtain more aromas. After the alcoholic fermentation, the malolactic fermentation helped to soften the taste of this blend, making it rounder and more balanced.

Tasting notes

This is a dark purple-red colored wine, with aromas based on notes of ripe forest fruit. The taste of the blend is intense, of blackberry jam, with firm tannins, giving this wine good body and structure.

Food pairing suggestions

Pairs well with pork, lamb or beef. Try this wine with a classic garlic & rosemary pork chops, with baked potatoes.

Serving temperature

This wine is best served at a temperature of 16-18°C.
